	Closing				

Wicked Problems	WEF	
No precise formulation	Everyone has their own idea of what the real problem is: water, energy, or food	
Causes, effects, tradeoffs, and offsets unknown or unknowable; assumptions constantly changing	Climate Ili River basin	
No true or false, just better or worse	What needs to be done to bring water, energy, and food into balance? It depends	

Funding agencies

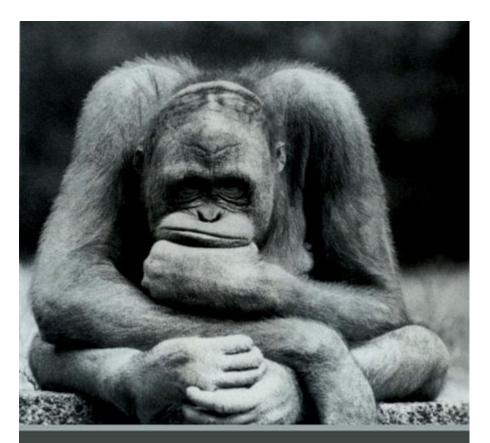

Most of us are hard wired

Stakeholders

Unknowable

**Tribalism** 

Solving, not managing

Oh what to do, what to dooo?
